

reflecta x22-Scan

With the reflecta x22-Scan mounted slides and negatives strips can be digitized in a very simple and fast way in high quality.

The scanner has a 5.8 cm display for image control and saves the scanned images directly as JPEG files to a SD card. This makes it completely independent of computers as a stand-alone device.

The enclosed holders enable the scanning of mounted slides with a thickness of up to 3.2 mm and of 35 mm film strips with up to six frames. The holders also ensure optimal flatness and gentle handling of the valuable film material.

The required time for each scan is less than two seconds.

Product Information

- **Image Sensor:**
1/4" - 8 Megapixels CMOS Sensor
- **Resolution:**
3468 x 2312 pixels or
4904 x 3268 pixels (interp.)
- **Display:**
2.3 inch (5.8 cm) LCD
- **Exposure and Color Correction:**
automatic /manual (-2.0 EV to +2.0 EV)
- **Film Types:**
Positive (slides), Negative, Black & White
(135, optional type 110 and 126)
- **Supported Storage:**
SD/SDHC card with up to 128 GB
- **Power Supply:**
Adapter 5V / 1A
- **Data Interface:**
USB 2.0
- **Compatibility:**
JPEG format is compatible with all digital
playback devices.
- **Weight:**
approx. 285g
- **Dimensions:**
92 x 101 x 120 mm (L x W x H)

Scope of Delivery

- Scanner x22-Scan
- Power adapter
- Holder for film strips 35 mm
- Holder for mounted slides 5x5 cm
- Cleaning brush
- USB cable
- User's manual
