## reflecta x44-Scar

The reflecta x44-Scan is ideal for digitizing large quantities of slides and negatives. It impresses with its simple handling and versatility.

A CMOS sensor with 16 megapixels, together with reflecta's IET image enhancement technology, ensures the highest image quality and brilliant color reproduction. The scanner has an impressive IPS display with a diagonal of 17.8 cm (7 inch) and a wide viewing angle, which makes selecting, scanning and reproducing images a real pleasure.

The x44-Scan digitizes slides or negatives in less than two seconds and saves them directly as JPEG files on an SD card. As a stand-alone device, the scanner is completely independent of computers.

The included holders enable the scanning of framed slides with a thickness of up to 3.2 mm as well as 35mm film strips with up to six images. The holders also ensure optimum flatness and gentle handling of the valuable film material. Holders for film formats 110 (Pocket) and 126 (Instamatic) are optionally available.

#### **Product Information**

Image Sensor:

1/2.33" - 16 Megapixels CMOS Sensor

· Resolution:

4920 x 3280 pixels or 6000 x 4000 pixels (interp.)

Display:

7 inch (17.8 cm) IPS LCD

- Exposure and Color Correction: automatic / manual (-2,0 EV to +2,0 EV)
- Image Enhancement Technology IET: automatic optimization of color and contrast
- Image Framing: adjustable in x, y and z-axis
- Film Types:
  positive (slides), negative, black & white
- Film Formats: 135 (24x36 mm), optional Typ 110 (Pocket) und 126 (Instamatic)
- Supported external Storage Media:
   SD memory cards with up to 128 GB
- Power Supply: adapter 5V / 1A (USB-C)
- Interface for data transfer: USB 2.0
- Compatibility:

JPEG format is compatible with all digital playback devices

• Weight:

approx. 512 g

• Dimensions:

182 x 133 x 160 mm (L x B x H)

### **Scope of Delivery**

- Scanner x44-Scan
- Power adapter
- Holder for film strips 35 mm
- Holder for mounted slides 5x5 cm
- Cleaning brush
- USB cable
- User's manual

Item.-No.: 64540
